

MANIFATTURA DI DOMODOSSOLA DAL 1913

MADE IN ITALY SINCE 1913

For over 110 years Manifattura di Domodossola has been an undisputed leader in the production of braided items for leather goods, clothing, furniture, jewellery and shoes. Always looking to the future, while still anchored to the values and traditions of its local territory, at the beginning of its second century of business the company inaugurates two new corporate divisions which lend their names to its brands: ATHISON and OXILLA.

 **ATHISON**<sup>®</sup>  
MADE IN ITALY DAL 1913

This fine leather goods brand offers an exclusive collection of belts, bracelets, small accessories and luxury purses, business and travel bags.

**OXILLA**<sup>®</sup>  
MADE IN ITALY

This furniture brand is specialized in the production of luxury materials that are perfect for lining the walls of yachts, aircrafts, private residences, stores and hotels. The product range also includes tubular models and pipings, as well as a collection of interior furnishings and articles for restaurants and hotels.
